

GREGORY A. BABBITT

Associate Professor

Email: gabsbi@rit.edu

Phone: (480) 773-9502

Address: 11 Bonnie Brae Ave
Rochester, NY 14618

Website: <https://people.rit.edu/gabsbi/>

PROFILE

I am a computational biologist with a focused interest in the development of modern statistical tools for comparative molecular dynamic simulation applied to the function and evolution of proteins and their interactions with other molecules. I am interested in the co-evolution of gene regulatory systems and their biophysical implications for the optimization of the genetic code. I am also broadly interested in the evolution of complex and stochastic processes, across all scales, from the molecular to the ecological.

COMPUTER SKILLS

Python, R, Perl, C, Ruby, HTML/CSS/JS, Amber16/18, UCSF Chimera, MEGA 7.0, MATLAB, GUI development

EXPERIENCE

ACADEMIA

- **Associate Professor**, 2016-present, *T.H. Gosnell School of Life Sciences, Rochester Institute of Technology, Rochester NY*
- **Assistant Professor**, 2011-2016, *T.H. Gosnell School of Life Sciences, Rochester Institute of Technology, Rochester NY*
- **Visiting Assistant Professor**, 2010-2011, *Department of Biological and Medical Sciences, Rochester Institute of Technology, Rochester NY*
- **Postdoctoral Research Associate**, 2006 - 2009, *under Dr. Yuseob Kim, Center for Evolutionary Functional Genomics, The Biodesign Institute, Arizona State University, Tempe, AZ*
- **Course Instructor** *University of Florida Biological Sciences Program, 2005-2006*
- **Teaching Assistantship**, *University of Florida Biological Sciences Program, 2000-2006*
- **Research Assistantship**, 1998-2000, *under Dr. Peter Frederick, University of Florida, Department of Wildlife Ecology and Conservation, Gainesville, FL*

PERFORMANCE STATISTICS

- **Thompson Reuters** (Web of Science) - h-index = 9, 262 citations/30 pubs, academic age = 14yr
- **ResearchGate** - RG score = 27 (98% percentile), 5K reads/downloads, 400 citations
- **Google Scholar** - h-index = 13, i10 index = 14, 427 citations

INDUSTRY BACKGROUND

- **Animal keeper and aviculturist**, Columbus Zoological Gardens, Columbus, OH, 1983-1997- care of pachyderms, large cats, giraffe and antelope, and birds.
- **Sub-chair, Ciconiiformes Taxon Advisory Group**, American Zoo and Aquarium Association 1996-2000 - Advised member institutions on husbandry and breeding of tropical storks

EDUCATION

Ph.D. / Biology

University of Florida

M.S. / Ecology

University of Florida

B.A. / Zoology

Ohio Wesleyan
University

Post-Doctoral / Genomics

Biodesign Institute
Arizona State University

AWARDS AND SMALL GRANTS

- Faculty Research Development Grant (FEAD) in 2018 from the College of Science, Rochester Institute of Technology \$5,000
- 2017 Nvidia hardware grant – Nvidia corporation (GTX Titan Xp processor)
- Faculty Research Development Grant (FEAD) in 2015 from the College of Science, Rochester Institute of Technology \$5,000
- Provost's Learning Innovation Grant (FEAD) in 2015 from the Rochester Institute of Technology \$5,000
- Strategic Acceleration of Research for Tenure Track Faculty grant (START) in 2012 from the Office of Sponsored Research Services, Rochester Institute of Technology \$10,000
- Faculty Research Development Grant (FEAD) in 2009 from the College of Science, Rochester Institute of Technology \$3,000
- Best Oral Presentation – Division of Invertebrate Zoology, Society for Integrative and Comparative Biology 2006. Orlando, FL.
- Best Poster – Waterbird Society 1998 meeting in Miami, FL. Runner-up Best Presentation
- Recipient of Student Travel Award to the 1999 meeting of the Waterbird Society in Grado, Italy

COURSES TAUGHT

- Cell and Molecular Biology for Engineers I and II
- Statistics for Bioinformatics
- Computational Statistics and Data Science (graduate)
- Bioinformatics Programming Languages
- Biomimicry for Scientists, Engineers and Artists
- Introduction to Bioinformatics

PROFESSIONAL MEMBERSHIPS AND SERVICE

- Biophysical Society
- Genetics Society of America

- Society of Molecular Biology and Evolution
- Sigma Xi - the Scientific Research Society
- American Society of Naturalists (past)
- The Society for Integrative and Comparative Biology (past)
- American Microscopical Society (past)
- American Zoo and Aquarium Association (past)
- Reviewer for National Science Foundation, National Institutes of Health and many professional journals.

PRESENTATIONS AND INVITED TALKS

Babbitt G.A. 2020. Machine learning-based detection of functionally conserved binding interactions in molecular dynamic simulations. Biophysical Society, San Diego CA USA. (chaired platform session on Molecular Dynamics)

Babbitt G.A. 2019. Machine learning based detection of genetic and drug class variant impact on functionally conserved protein dynamics. Hauptman-Woodward Medical Research Institute, Buffalo, NY USA.

Babbitt G.A. 2019. Machine learning based detection of genetic and drug class variant impact on functionally conserved protein dynamics. Ruder Boskovic Institute, Zagreb, Croatia.

Babbitt G.A. 2020. Machine learning-based detection of functionally conserved binding interactions in molecular dynamic simulations. Biophysical Society, San Diego CA USA.

Babbitt G.A. 2019. Comparative molecular dynamics of the BRAF activation loop reveals a biophysical mechanism of cancer recurrence under drug inhibition. Biophysical Society, Baltimore MD USA.

Babbitt G.A. 2018. Taking the measure of mutation in the light of molecular dynamics. Genetics Society of America, Madison, WI USA

Babbitt G.A. Coppola E.E. Mortensen J.M. 2018. DROIDS 1.0 – a GUI-based pipeline for GPU-accelerated comparative protein dynamics. Biophysical Society, San Francisco, CA USA

Babbitt G.A. Coppola E.E. 2017. Triplet codon organization optimizes the impact of synonymous mutation on nucleic acid molecular dynamics. Society for Molecular Biology and Evolution, Austin, TX USA

Babbitt G.A. Coppola E.E. 2016. GC content evolution through the lens of nucleic acid molecular dynamics. Genetics Society of America, Orlando, FL USA

Babbitt G.A. 2015. GC content evolution in light of macromolecular polymer dynamics. Society for Molecular Biology and Evolution Conference, Vienna Austria

Babbitt G.A. 2015. Visualizing Shannon information content on the DNA backbone. Society for Molecular Biology and Evolution Conference, San Juan Puerto Rico

Babbitt G.A. 2014. Chromatin evolving: is DNA the only relevant molecular target of natural selection? Invited talk. Student organized Molecular Biology Symposium UC Denver Medical Center

Babbitt G.A. 2013. Codon bias and the multiplexing of genetic and structural information in DNA. Session Presentation, Society for Molecular Biology and Evolution Conference, Chicago USA.

Babbitt G.A. 2012. Evolving codes –real and imagined manifestations of the genetic code. GSOLS seminar series

Babbitt G.A. 2011. Dynamic DNA-histone interaction as a common currency for quantifying eukaryotic gene regulatory evolution. Presentation, Biophysical Society Meeting: Dynamic DNA packaging across kingdoms; chromatin and beyond. Asilomar, California

Babbitt G.A. and Kim Y. 2008. Evolution at the gateway to transcription: selective forces maintaining chromatin differences at the core promoter. Session Presentation, Society for Molecular Biology and Evolution Conference, Barcelona, Spain.

Babbitt G.A. and Kim Y. 2007. Inferring natural selection on fine-scale chromatin organization in yeast. Session Presentation, Society for Molecular Biology and Evolution Conference, Halifax, Nova Scotia.

Babbitt G.A. 2007. Stress, stability and size: capturing process variation in the development of multicellular organisms. Session Presentation, Annual Meeting of the Society for Integrative and Comparative Biology, Phoenix, AZ. Abstract only to be published in Integrative and Comparative Biology.

Babbitt G.A. Kiltie R., and Bolker B. 2005. Are fluctuating asymmetry studies adequately sampled? Implications of a new model for size distribution. Session Presentation, Annual Meeting of the Society for Integrative and Comparative Biology, Orlando, FL. Abstract only published in Integrative and Comparative Biology 45(6) 959-959. Awarded best student presentation, Invertebrate Zoology Division.

Babbitt G.A. 2004. Population-level power-law distribution of developmental stability is associated with genetic homogeneity. Poster Presentation, Annual Meeting of the Society for Integrative and Comparative Biology, New Orleans, LA. Abstract only published in Integrative and Comparative Biology 43(6) 940-940.

Babbitt G.A. 2003. Population-level power-law distribution of developmental stability is associated with genetic homogeneity. Poster presentation, Fourth Annual Georgia Tech Conference on Bioinformatics, Atlanta, GA.

Babbitt G.A. 1999. When do male ibises have longer bills than females? The evolution of sexual bill dimorphism within colonial ibis species. Session presentation, Proceedings of the 1999 Waterbird Society, Grado, Italy.

Babbitt G.A. 1998. Mathematical description and analysis of reproductive photocues in captive bird populations. Session Presentation, Proceedings of the 1998 North American Ornithological Conference, St. Louis, MO.

Babbitt G.A. and Frederick P.C. 1998. Does body condition limit the reproduction of captive Scarlet Ibis? Session presentation, Proceedings of the 1998 Colonial Waterbird Society, Miami, FL.

Babbitt G.A. and Frederick P.C. 1998. Why do male Scarlet Ibis have longer bills than females? Poster presentation, Proceedings of the 1998 Colonial Waterbird Society, Miami, FL. Awarded best student poster presentation.
